

Riftbound: Legacy – Dates, Details, and What You Need to Know

Hello Retailers and LGS partners! Riftbound's sixth booster set, **Legacy**, releases in January 2027 and features some of League of Legend's most iconic and enduring champions. Featuring over 300 cards including more than 90 showcase cards, **Legacy** is set to make history with new legends and champions that embody the history of their region. **Legacy** features champions like Ashe, Tryndamere, Garen, Lux, Vladimir, Karma, and many more.

Legacy has all of our standard product offerings and then some. Returning products include our standard booster displays, our Vault bundle, a collection of playmats and art sleeves, and of course Pre-Rift Event Kits. **Legacy** features the return of our Champion decks, this time with four decks in one display designed to be purchased together or independently. Champion decks feature Ashe, Tryndamere, Garen, and Lux and are designed to play together in a 2v2 showdown, with the Freljord taking on Demacia.

As for accessories, **Legacy** is full of options for players to customize their style. Sleeves are being adjusted to 70 card packs with 2 arts, each pack contains 50 main deck sleeves featuring an array of champions and 20 Rune deck sleeves. Playmats get an upgrade too, with all 12 Champions in **Legacy** getting a playmat featuring their art!
